Subject: Another approval authorizing inplace management of PCB source material
Attachments: Southington Schools Approval.pdf

Categories: Orange Category

Jennifer, Jeff mentioned that you were interested in other primary education facilities where EPA has authorized PCB sources to remain in place. Attached is the approval for Southington that allows them to manage a vapor barrier material containing greater than 50 ppm in place ... provided they have a monitoring plan.

This is the same school that recently started renovation and you sent us a newspaper article on.
